STOCKHOLM PUBLIC HEALTH LECTURES

From policy to evidence – catching up with the rapid implementation of COVID-19 response measures

The Department of Global Public Health, in collaboration with the Center for Epidemiology and Community Medicine, invites to the upcoming lecture in the *Stockholm Public Health Lectures* series. The topic of the lecture is evidence on COVID-19 response measures.

This lecture will address challenges associated with developing rapid guidelines in response to new global public health emergencies. The process of synthesizing evidence and developing guidance on international travel – related COVID-19 control measures will be used as a case study from which we hope to learn some general lessons to help prepare policy makers, public health practitioners and researchers for coming health emergencies.

LECTURES

- International travel-related COVID-19 control measures: exploring the process and challenges associated with rapidly producing evidence to inform policy (Jacob Burns, Ludwig-Maximilians-Universität München, Germany).
- Processes and challenges when developing Emergency interim guidelines or Rapid advice guidelines on public health emergencies – examples from WHO’s COVID-19 response (Professor Lisa Askie, Science Division, World Health Organization, Switzerland).

Panel members: Jacob Burns, Lisa Askie, Anders Tegnell, State Epidemiologist of the Public Health Agency of Sweden and Ole Petter Ottersen, President of Karolinska Institutet.

Moderator: Professor Knut Lönnroth, Department of Global Public Health, Karolinska Institutet.

ABOUT STOCKHOLM PUBLIC HEALTH LECTURES

The lecture series focuses on key topics in the area of public health, as well as issues that concern the planning and commissioning of healthcare. The lectures are held in English, free to attend and targeted to a broad audience. *Stockholm Public Health Lectures* is held twice per semester.

”From policy to evidence – catching up with the rapid implementation of COVID-19 response measures”

TIME: Wednesday 20 October, 16.00 – 17.30

LOCATION: Online via Zoom

REGISTRATION: Please register via the form at: <https://bit.ly/2X2hBPp>

STOCKHOLM PUBLIC HEALTH LECTURES

From policy to evidence – catching up with the rapid implementation of COVID-19 response measures

Institutionen för global folkhälsa, i samarbete med Centrum för epidemiologi och samhällsmedicin, bjuder in till det kommande tillfället i föreläsningsserien *Stockholm Public Health Lectures*. Temat för föreläsningen är bevis på COVID-19-åtgärder.

Föreläsningen tar upp utmaningar i samband med den snabba utvecklingen av riktlinjer för att möta nya globala folkhälsokatastrofer. Sammanställningen av evidens och utvecklingen av rekommendationer kring internationellt resande, relaterat till restriktioner i samband med COVID-19, kommer att användas som exempel. Vi hoppas att detta kan ge oss generell kunskap för att förbereda beslutsfattare, folkhälsoarbetare och forskare för kommande hälsokatastrofer.

FÖRELÄSNINGAR

- International travel-related COVID-19 control measures: exploring the process and challenges associated with rapidly producing evidence to inform policy (Jacob Burns, Ludwig-Maximilians-Universität München, Tyskland).
- Processes and challenges when developing Emergency interim guidelines or Rapid advice guidelines on public health emergencies – examples from WHO's COVID-19 response (Lisa Askie, professor, Science Division, World Health Organization, Schweiz).

Paneldeltagare: Jacob Burns, Lisa Askie, Anders Tegnell, statsepidemiolog vid Folkhälsomyndigheten och Ole Petter Ottersen, rektor vid Karolinska Institutet. **Moderator:** Knut Lönnroth, professor, institutionen för global folkhälsa, Karolinska Institutet.

OM STOCKHOLM PUBLIC HEALTH LECTURES

Föreläsningsserien fokuserar på aktuella frågor inom folkhälsoområdet samt frågor som rör planering av hälso- och sjukvården. Tillfällena hålls på engelska, är kostnadsfria och riktar sig till en bred publik. *Stockholm Public Health Lectures* hålls två gånger per termin.
